## **Architecture Eastern Docklands**

20 to 50 persons, duration 2,5 hours

### **New Architecture in the Eastern Harbor area**

During the cruise our specialized guide will explain the social-historic background that have led to the redevelopment of the Eastern Harbor area. It will become visible to you how social-economic concepts have been made reality in the architecture that now dominates the Eastern Harbor area.

City development in the beginning of the last century

You will be able to stretch your legs when the cruise is interrupted for a short walk across the 'Dragon bridge'. And finally you will sail to the Spaarndammerbuurt neighborhood for a visit to museum The Ship.

This museum

This museum clarifies the role of the labourmovement in city development and shows the important role of the architecture movement Amsterdam's School.
